

CITTÀ DI QUILIANO
Provincia di Savona

PRESS RELEASE N. 56
Quiliano, 8th July 2024

European Union Co-funded Project.
“Twinning In Community”
sponsored by Quiliano and Ajdovščina, twin municipalities

The project “Twinning In Community” promoted by the Municipality of Quiliano (Italy) and the Municipality of Ajdovščina (Slovenia) will begin with the event organized in the Municipality of Quiliano entitled “A gymnasium for democracy and reading to join” on the 6th, the 7th and the 8th of September 2024, and will be supported by the participation of all local national and international partners who will ensure a plurality of goals according to the principles of twinning. The desired goal is to offer shared ways to develop new intergenerational twinning relationships, also fostered by a virtuous dialogue about the role of the European Union in supporting peace and cooperation among peoples, according to Agenda 2030. The support of the different partners in the two territories represents an added value to the “TIC” project and will contribute to the achievement of the project goals.

The project partners are:

- A.I.C.C.R.E. Associazione Italiana per il Consiglio dei Comuni e delle Regioni d'Europa – Federazione della Liguria (it encourages and supports local authorities in their Europeanization and integration process);
- Network of Sustainable Municipalities (it accompanies the municipalities in achieving the goals of the United Nations 2030 Agenda for Sustainable Development);
- A.R.C.A. Cooperative Society (it protects children, youth, the elderly and disadvantaged people);
- Lavrič Ajdovščina Library (it supports youth work, bibliopedagogical work, and work with special groups);
- Ajdovščina Friends of Youth Association (it works to improve children’s quality of life, teenagers and families).

The Communication Plan has been shared with the associated project partners in order to ensure a joint planning of all the necessary communication activities and actions. A digital space will also be created directly on the institutional websites of the two municipalities and it will allow everyone interested in the project to have access to all the information concerning the project and any further additional information about it.
