Twinning In Community

The second event of the project co-financed by the EU is coming
"From literacy to reading through the Children's Parliament"

The project co-financed by the European Union Twinning In Community, which sees the collaboration between the Municipality of Quiliano and the Slovenian Municipality of Ajdovščina, gets to the heart with the second event scheduled. From 8 to 10 May 2025, a delegation of 25 people from the Municipality of Quiliano will have the opportunity to visit the Slovenian Municipality of Ajdovščina for an intense program of exchanges and activities.

The project, aimed mainly at young people, has as its objective the promotion and exchange of good practices between the two Municipalities, with particular attention to the valorization of the library and its resources as a center of cultural and social aggregation.

The young participants of the first event of the project took place in September 2024 in Quiliano are ready to leave for the twinned Municipality of Ajdovščina for a new experience.

The meeting will allow Italian participants to interact with young Slovenians in educational, cultural and social activities, strongly focused on cooperation, social inclusion and the development of youth skills through culture. An important opportunity to discover how libraries can be a point of reference for the community, promoting values of accessibility, education and participation.

The young people from Quiliano, members and former members of the City Council of Boys and Girls, accompanied by some representatives of the Municipal Administration and the Twinning Committee and by Desiderata Slivar, Secretary of AICCRE Federation Liguria, will participate in events organized by the Municipality of Ajdovščina, which include workshops, cultural activities and moments of sharing experiences. The event program focuses on strengthening the connection between the young people of the two Municipalities and building a future of increasingly stronger collaboration at an international level.

The Ajdovščina project represents another significant step in the Twinning in Community project, which aims to promote integration between the two realities through an intercultural dialogue that enriches future generations with new perspectives. The Municipality of Quiliano expresses satisfaction for the start of this exchange process and underlines the importance of initiatives like this one that promote European values of collaboration and cohesion, with particular attention to the needs and aspirations of young people.

We remind you that the contents, material, photos and videos of the three days of the first workshop in September 2024 have been inserted in the appropriate section on the institutional website of the City of Quiliano, at the following link:
