The second stage of the European project "**Twinning in Community**", carried out in Slovenia on 8/9/10 May 2025 with the event entitled "*From literacy to reading through the Children's Parliament*", has been successfully concluded.

The trip involved 25 citizens of the Municipality of Quiliano, guests of the Slovenian Municipality of Ajdovščina and protagonists of a three-day trip dedicated to dialogue, active participation and intercultural exchange.

The project aims to strengthen the ties between European communities, promoting intercultural dialogue, active citizenship and the construction of lasting relationships between twinned cities.

The group of Quiliano citizens, protagonist together with the group of Slovenian citizens, took part in a rich program of institutional meetings, thematic workshops and cultural exchange activities with the Slovenian partners, living an engaging experience of great educational value.

The trip was an important opportunity to share European values, explore issues of common interest and strengthen the sense of belonging to a larger community, the European one. The participants returned to Quiliano on Saturday, bringing with them new ideas, connections and a renewed spirit of civic participation.
